DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 7 and 9 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent No. 4,946,466 to Pinchuk et al.

Pinchuk discloses a medical device, comprising: an elongate tubular body (24) having a proximal end and a distal end and a lumen extending therethrough; an inner wire (12) within the lumen of the elongate tubular body having a proximal end extending proximal to the proximal end of the elongate tubular body and a distal end, the inner wire being moveable relative to the elongate tubular body (Column 2 lines 66-68); an expandable member (14) connected to the distal end of the elongate tubular body; and a coil (22) extending over the inner wire at a proximal end thereof, the coil being fixedly attached to the proximal end of the elongate tubular body.

Response to Arguments

3. Applicant's arguments with respect to claim 1 have been considered but are moot in view of the new ground(s) of rejection.

Allowable Subject Matter

4. Claims 2, 4 and 8 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Art Unit: 3731

5. Claims 27 and 28 are allowed.
